# EUROPEAN PARLIAMENT RESOLUTION ON THE NEW CIRCULAR ECONOMY ACTION PLAN & ELECTRONICS AND ICT

## EUROPEAN PARLIAMENT'S POSITION

**COMMON CHARGERS**
- Common chargers not only for smartphones but **also for all small and medium-sized electronic devices**
- Ensure **wireless charging**
- **Decoupling strategy**, allowing consumers to buy new devices without new chargers
- **Harmonised labelling & trustworthy and relevant information** on relevant chargers features

**RIGHT TO REPAIR**
- Covering at least the **extended life cycle of products, access to spare parts, comprehensive information, affordable repair services** for consumers.

**ECODESIGN**
- Including **mobile network stations and subsystems and networking equipment** under the revised Ecodesign Directive

**CIRCULAR ELECTRONICS INITIATIVE**
- An **initiative on circular and sustainable digitalisation, ICT and AI plan**, besides the Circular Electronics Initiative

**EU-WIDE TAKE BACK SCHEMES**
- Covering the **widest possible range of products**, beyond old mobile phones, tablets and chargers
- **Safeguarding the re-usability of ICT products and providing re-use operators with access to re-useable goods**

**RECYCLING**
- **Mandatory certification scheme for recyclers** of e-waste to guarantee efficient material recovery and environmental protection

**INFORMATION TO CONSUMERS**
- Investigate the possibility of providing **consumer information on the distinction between corrective and user-driven updates and the carbon impact of data consumption**

**Cambre**
public policy & public relations
